Summary

Full Stack Developer (1+ Year Experience) | AI, Payments & Automation
Hi, I'm Parthik Jadav — a full stack developer focused on building real-world AI-powered applications and scalable web systems. Over the past year, I've worked on production apps involving AI workflows, Stripe payment systems, and secure authentication systems, where I've built features end-to-end across frontend and backend.

What I Work On:

- Building full-stack apps using Next.js, Node.js, and Supabase
- Designing AI-powered systems (RAG, content generation, financial analysis)
- Implementing Stripe payments (subscriptions, auto-topups, webhooks)
- Creating secure systems with authentication, RBAC, and 2FA
- Improving UX with realtime features and performance optimizations

Projects Highlights:

- Built AI platforms using OpenAI & FAL AI for content and financial analysis
- Developed auto credit systems with Stripe (auto recharge + manual top-ups)
- Implemented secure document workflows and role-based systems
- Worked on production-level features, bug fixes, and system improvements

Tech Stack:

Next.js • React • Node.js • Express • Supabase • PostgreSQL • MongoDB • Stripe • OpenAI • FAL AI • Docker • AWS • Vercel

Let's Connect:

I'm always interested in building impactful products, especially in AI, automation, and scalable SaaS systems. If you're working on something exciting or hiring, feel free to connect!

Experience

Uplift Infotech
Full Stack Developer | AI Apps, Stripe Payments, Supabase | Next.js & Node.js
March 2025 - Present (1 year 4 months)
Surat

Worked on AI and finance web apps using Next.js, Node.js, Supabase, and Stripe

Built and improved payment flows, authentication, and credit systems

Added secure features like 2FA, webhooks, and access control

Collaborated on production features and bug fixes across frontend and backend

Education

Veer Narmad South Gujarat University (VNSGU), Surat

Bachelor's of computer applications, Computer Programming, Specific Applications · (July 2024 - July 2027)
